Conclusion: PASS

Notes:
(1) The limit is referenced to the requirement stated in the San Francisco Superior Court, CGC-10-497729 and CGC-10-498981.
(2) The reference limit applied in testing is based on particular prop 65 settlements that are most similar to the tested product in the opinion of the lab. The testing in this report does not reflect a user’s actual exposure to the tested chemical.
A manufacturer or retailer that is not named in the referenced settlement is not bound by that settlement, and may choose to comply with Proposition 65 by clearly informing the consumer of potential exposure.
